

Dividend Distribution Policy

ACME Pesticides Limited's Board pursues a dividend policy which is flexible and designed to ensure a steady income for the investors by the way of dividend if the cash flow permits.

A portion of the profit of the Company is put in investor's fund for future appropriation, either in equity or to make up for any shortfall, in case in any year the profit is not adequate and in that case the fund can be used to meet the expectations of shareholders.

The policy is dynamic and will change over time as the sponsors perceive the change in the expectations of the general shareholders.
